

Living with COVID-19

Focus on mobility

The COVID-19 pandemic has impacted mobility needs and usage, accelerating the shift to more sharing and flexible mobility as well as to short-term car rental as an alternative to full car ownership.

Allianz Partners is supporting mobility players, drivers and riders with...

Integrated services for flexible vehicle ownership, supporting car subscription providers by offering insurance and services bundles (fully comprehensive motor insurance, personal accident insurance, or roadside assistance services) included in the overall monthly subscription rate.

Reinforced safety for micromobility customers with comprehensive insurance solutions to cover riders for personal accident and third party liability during their e-scooter or e-bike journey.

Digital-first products and processes to simplify distribution and increase customer satisfaction like embedded insurance and assistance services that come with the car and at no extra cost for the customer.
