## Introduction

This Allianz Worldwide Care Fee Schedule has been designed to be used by consultants and specialists undertaking treatment on our members in the UK.

The Fee Schedule provides a detailed list of procedure codes and narratives based upon the industry standard CCSD codes. Allianz Worldwide Care has published recommended fees for each of the procedures listed. These fees are considered to be reasonable and customary and have been calculated based upon detailed claims analysis, market research, the complexity of the procedure and its duration. For surgical procedures, both a procedure (surgeon's) fee and an anaesthetist fee, where appropriate, have been listed. In addition to the published fees, Allianz Worldwide Care has also outlined invoicing principles for consultants and specialists to follow when issuing invoices to Allianz Worldwide Care.

This Fee Schedule may be amended or altered by Allianz Worldwide Care at any time due to the evolving nature of medical treatments and practices.

## Scope

This Fee Schedule is applicable only in the UK and relates specifically to :

- Allianz Worldwide Care international medical insurance scheme members;
- Allianz Worldwide Care Health Trust members; and
- Members who are insured with, or are part of, a healthcare plan administered by Allianz Worldwide Care or any subsidiary company of Allianz Worldwide Care.

This Fee Schedule covers any future Allianz Worldwide Care products, companies or schemes within the UK.

## Coding

Invoices should detail the CCSD code for the procedure performed, as listed in this document. Given that the published fee includes all component parts of the procedure, typically no additional lines or items should appear on an invoice; except where multiple procedures are performed.

The CCSD code shown on an invoice should accurately reflect the treatment description as provided in the procedure narrative.

If you are planning on performing a procedure or treatment that is not listed in this Fee Schedule please contact the Medical Services Department to discuss this matter and to confirm procedural and anaesthetist fees.

## Reimbursement

The fees published within this document show the monetary amount that Allianz Worldwide Care expects to reimburse consultants and specialists, for the eligible treatment of an Allianz Worldwide Care member in the UK.

Please note that eligible treatments and the amount of benefit available to a member will depend on the specific health insurance policy that they have purchased with Allianz Worldwide Care. It is recommended that this matter is discussed with the member, prior to treatment taking place.

### Single Procedures

Where only one procedure is performed, the consultant or specialist is entitled to 100% reimbursement of the fee published within this Fee Schedule.

The published fees include all pre- and post-procedural attendance and care, including daily ward care. The aforementioned treatment costs should not be invoiced separately.

### Multiple Procedures

Different medical insurance companies have varying policies on how multiple medical procedures are reimbursed. If more than one procedure is performed on an Allianz Worldwide Care member under the same anaesthetic, then an additional benefit is payable. Below are the guidelines for multiple procedures:

- Where two procedures are performed, Allianz Worldwide Care will pay 100% of the fee for the primary procedure and 50% of the fee for the secondary procedure. Please note that the secondary procedure fee is calculated as 50% of the fee payable for the procedure itself and not based on the fee payable for the primary procedure.
- Allianz Worldwide Care will consider additional reimbursement for a third procedure, but this must be agreed prior to treatment taking place and will be assessed on a case-by-case basis. If reimbursement for a third procedure is agreed by Allianz Worldwide Care then 25% of the fee will be paid. Only in exceptional circumstances will any additional funding be considered for any more than three procedures.

### Bilateral Procedures

In most instances, bilateral procedures have their own unique CCSD procedure code. If there is a code for the bilateral procedure then the published fee for that code applies. Where there is no bilateral code published, Allianz Worldwide Care's multiple procedure rules (above) are applicable.

### Complex Procedures

In the instance where a planned procedure is anticipated to be considerably more complex than normal, or once the procedure is underway it becomes apparent that it is going to take an unusually long time in theatre; Allianz Worldwide Care is prepared to review the published reimbursement fee.

Reasons why additional funding should be considered by Allianz Worldwide Care must be provided to the Medical Services Department prior to an invoice being received for the

procedure(s) in question. Where possible, this information should be provided prior to the treatment commencing.

## Consultations

Out-patient consultations:

- Allianz Worldwide Care will only reimburse consultations that happened face-to-face;
- Telephone consultations should not be claimed; and
- Only one consultation per member, per day may be claimed

In-patient consultations:

- In-patient consultations are only eligible for reimbursement if carried out by the leading consultant or specialist.

## Radiology and Pathology

Allianz Worldwide Care has pricing agreements in place with hospitals that form part of our UK Hospital Network. Many of the prices agreed with hospitals include specialist fees, notably diagnostic radiology and pathology services. For these services, specialists should negotiate appropriate remuneration with the hospital.

All diagnostic radiology should be invoiced through the hospital or facility in accordance with contracted fees. If you wish to bill independently for the hospital or facility then this should be approved with Allianz Worldwide Care prior to the invoice being sent for payment.

Therapeutic interventional radiology can be invoiced in accordance with fees contained in this schedule.

All pathology charges should be invoiced through the hospital, recognised pathology facility or facility where the procedure took place. If you wish to bill independently for the hospital or facility then this should be approved with Allianz Worldwide Care prior to the invoice being sent for payment.

## Unbundling

Unbundling is the practice whereby a procedure is broken down into individual components, where such components form an integral part of the main procedure and are charged for in an itemised manner.

Individual components of a procedure should not be separated out and invoiced to Allianz Worldwide Care separately. The published fee for single procedures takes into account all the component elements required to perform the procedure, and therefore, any component parts of a single procedure will not be reimbursed by us. Any consultants or specialists consistently unbundling procedures may have their recognition status withdrawn by us. Special attention should be given to local anaesthetic and/or sedation as in many instances this is considered part and parcel of the procedure itself by generally accepted standards.

## **Anaesthesia**

The anaesthetic fee is only applicable for attending anaesthetists and covers all routine pre- and post-operative care and attendance. This includes pre-operative assessments and routine and planned critical care monitoring.

No additional fees are expected to be paid by Allianz Worldwide Care for anaesthesia and/or sedation where a published value of zero (£0) is shown.

There are a number of procedures where local anaesthetic and/or sedation are generally considered to be part and parcel of the procedure itself. In these instances, no additional fee should be claimed.

If a procedure that is (by generally accepted standards) normally performed by the main operator under local anaesthetic, is performed under general anaesthetic then an additional fee of up to £100 may be claimed. However, this is only applicable for cases where a separate anaesthetic invoice has not been received by an anaesthetist.

## **More Than One Specialist**

Where a procedure requires more than one specialist in attendance then Allianz Worldwide Care will consider additional reimbursement, where best practice is being followed. In these instances, you should contact the Medical Services Department prior to the treatment taking place to discuss a higher fee.

Medical Services Department contact details:

Tel: 0203 564 2546  
Fax: 00 353 1 6531780  
E-mail: [medical.services@allianzworldwidecare.com](mailto:medical.services@allianzworldwidecare.com)

## **Assistants**

Fees for assistants should not be claimed as these are considered to be included in the published fee.

## **Shortfalls**

Allianz Worldwide Care considers the fees published within this schedule to be fair, reasonable and customary for the service provided. In instances where the consultant or specialist fee exceeds the published fee, then a shortfall may occur. In this case, the shortfall amount is considered to be the member's liability.

If it is anticipated that a shortfall is likely to occur, the member should be made explicitly aware of this prior to treatment taking place.

Allianz Worldwide Care reserves the right to suspend or withdraw a consultant or specialist's recognition, if the fees charged are persistently in excess of those published and are unjustifiable.

## **All Inclusive Pricing**

It is sometimes the case that Allianz Worldwide Care has agreements in place with hospitals and facilities, where consultant and specialist fees are built into the contracted fee. In this situation consultants and specialists should not invoice Allianz Worldwide Care, as this would constitute double billing. The consultant or specialist should make separate arrangements with the hospital or facility for reimbursement.

## Treatment Guarantee (Pre-Authorisation)

Certain treatments and costs require pre-authorisation. When required, the relevant sections of the Allianz Worldwide Care Treatment Guarantee Form need to be completed by the member and their consultant/specialist. This form is then submitted to our Medical Services Department for approval prior to treatment. We will respond within 24 hours of receipt of a fully completed Treatment Guarantee Form. Should the correct conditions be met, Allianz Worldwide Care will respond with a Guarantee of Payment. This guarantee is a statement issued to the consultant or specialist, confirming that Allianz Worldwide Care will pay for the described procedure up to a specified contribution.

Treatment Guarantee is required for the following benefits, which may or may not be included in the member's plan:

- In-patient benefits as listed in the member's Table of Benefits
- Day-care treatment
- Out-patient surgery
- MRI (Magnetic Resonance Imaging), PET (Positron Emission Tomography) and CT-PET scans
- Nursing at home
- Routine maternity including complications of pregnancy and childbirth (in-patient treatment only)
- Oncology (in-patient and day-care treatment only)
- Occupational therapy (out-patient treatment)
- Rehabilitation treatment
- Medical evacuation (or repatriation where covered)
- Expenses for one person accompanying an evacuated/repatriated person
- Repatriation of mortal remains
- Palliative care and long term care
- Travel costs to another Channel Island, the UK or France (for members covered under the Corporate Healthcare Plan for the Channel Islands)

The member's Table of Benefits will confirm which benefits are available to them, and which of these require Treatment Guarantee.

Treatment Guarantee is necessary in order to ensure that all costs are fully covered within the insured member's plan. As with all health insurance policies, Allianz Worldwide Care will only cover treatment that is medically necessary and charges that are usual and customary (with reference to this fee schedule). Therefore, it is vital that we are contacted prior to treatment so that we can confirm the medical necessity of the treatment, as well as the appropriateness of costs.

In the event that Treatment Guarantee is not obtained and the treatment is subsequently proven to be medically necessary, Allianz Worldwide Care reserves the right to pay only 80% or 50% of the published fee/invoiced amount. The level of reimbursement will vary depending on the treatment undertaken, as per the conditions of the member's policy. In instances where this occurs, the shortfall amount is considered the member's liability.

## Appropriate Treatment

Consultants and specialists must operate in accordance with good clinical practice and in line with professional codes of conduct. Only procedures that are deemed medically necessary and appropriate will be reimbursed by Allianz Worldwide Care.

### Guidelines for Appropriate Treatment

Procedures performed on Allianz Worldwide Care members must be:

- a. Essential to identify or treat a member's condition, illness or injury
- b. Consistent with the member's symptoms, diagnosis or treatment of the underlying condition
- c. In accordance with current good clinical practice and professional standards of medical care in the medical community
- d. Required for reasons other than the comfort or convenience of the member
- e. Proven and demonstrated to have medical value and are not deemed by us to be experimental
- f. Considered to be the most appropriate type of procedure
- g. Provided at an appropriate facility, in an appropriate setting and at an appropriate level of care for the treatment of the member's medical condition
- h. Provided only for an appropriate duration of time

Any procedure, which is considered experimental or unproven, in the reasonable opinion of Allianz Worldwide Care and based on generally accepted medical practice, will not be reimbursed.

## Fraud

Fraud can be an action that falls within any one of the following three areas:

- Fraud by false representation;
- Fraud by failing to disclose information; and
- Fraud by abuse of position.

Allianz Worldwide Care takes fraud very seriously and we have rigorous processes and procedures in place to identify any fraudulent activity. We monitor claims and conduct regular audits, with reference to medical reports if necessary. We will not tolerate fraud and reserve the right to withdraw consultant recognition if fraud is suspected. In addition to this, cases of fraud will be reported to the police and to the General Medical Council (GMC) or in the case of dentistry, the General Dental Council (GDC).

Below is a list of examples that we consider to be fraudulent invoicing. Consultants and specialists should not knowingly:

- a. Invoice for procedures that they have not performed
- b. Invoice for services rendered to a person other than the member named on the Allianz Worldwide Care membership card
- c. Use separate codes for a single procedure (double billing)
- d. Invoice for multiple codes where one of those codes includes the other (unbundling)
- e. Use codes that do not accurately reflect the procedure performed
- f. Exaggerate the complexity of procedures performed
- g. Misrepresent the charges
- h. Split the fees incurred in a single day into more than one day
- i. Alter dates of treatment or diagnosis

## Invoicing

Consultants and specialists should endeavour to invoice Allianz Worldwide Care within thirty (30) days of the member being discharged following treatment. Please note that Allianz Worldwide Care reserves the right to refuse invoices that are received six (6) months or more after the date of discharge.

For further information on invoicing, including a full description of the information and detail that is to be included, please refer to the Terms and Conditions of your recognition with Allianz Worldwide Care.

## Payment

Allianz Worldwide Care will reasonably endeavour to settle invoices in Sterling (GBP) within thirty (30) days of receipt of invoice. This payment arrangement is subject to the receipt of all necessary information, the Terms and Conditions of your recognition and the Terms and Conditions of the member's policy. Allianz Worldwide Care reserves the right to request further documentation or information if necessary.

A settlement statement will be sent to you advising you of the total amount paid by electronic transfer. This settlement statement, where applicable, will detail any claim that has been declined and the reason for such a decline.

Allianz Worldwide Care reserves the right to decline settlement, in part or in full, in accordance with the member's policy with us. A settlement may be declined:

- If Allianz Worldwide Care cannot verify that the person to whom the invoice relates is currently insured by the company;
- If the treatment is deemed not to be medically necessary; or
- If a treatment guarantee (pre-authorisation) has not been provided, where required.

Allianz Worldwide Care will not be liable for any amount that is not covered under the member's policy or for any co-payments, deductibles or amounts exceeding the member's plan and benefit limits.
